PRESS RELEASE

NEPTUN WERFT delivers Viking Halogi to Viking

Additional Vessel for the Successful Longship Fleet

Rostock/Basel, 24.11.2026 NEPTUN WERFT has officially handed over the river cruise ship **Viking Halogi** to **Viking** in Basel. The technical delivery of the vessel by the project management team had already taken place on Tuesday, November 17, 2026, in Lelystad, the Netherlands.

With a length of 135 meters, *Viking Halogi* is part of the **Longship Series**. The vessel accommodates **190 passengers** and features **95 staterooms**. It will operate on various European waterways, including the **Rhine River**.

The vessels of the Longship Series are equipped with a **hybrid propulsion system**, combining diesel engines and batteries. NEPTUN WERFT has been building these vessels for Viking since 2010.

Viking plans to continue expanding its river cruise fleet. An additional **25 vessels** are scheduled for delivery by **2030**.
